4- You **MUST** answer the questions using only the answer booklets provided.
5- You **MUST** return the examination paper together with your answer booklets.
6- Do **NOT** write your answers in pencil except graphs/sketches.
7- Students are **NOT** allowed to use any type of dictionary or mobile phones during the examination.
8- Students are allowed to use ***non-programmable*** calculators only (if needed).
9- Any form of cheating will **NOT** be tolerated and will subject you to AOU Cheating Policy.

Question 1 (50 marks):

A- Martin Tools sells products A, B, and C. In 2024, the unit sales price ($), variable costs ($), and sales mix of these products were:

	Products		
	A	B	C
Selling price per unit	20	30	10
Variable cost per unit	6	7	4
Sales mix ratio	2	2	1

The fixed costs are $2,400

Required:

(1) Calculate Martin Tool's breakeven sales (units).
(2) Calculate the sales (in units) required to earn a target profit of $2,100. Prove your answer. (23 marks)

B- The following details relate to ready meals that are prepared by a food processing company: (21 Marks)

	K **$ per meal**	**L** **$ per meal**	**M** **$ per meal**
Selling price	6	4	5
Variable conversion costs	3.80	2.20	3.80
Fixed conversion costs	0.50	0.30	0.60
Profit	1.70	1.5	0.60
Oven time (minutes required per ready meal)	10	4	8

Required

Show which ready meal is the most profitable for the company as per contribution per limiting factor? (per minute). Comment on the results.

C- State six advantages of budgets. (6 marks)

ACE EGYPT

Question 2 (50 marks):

A- Genesis and Co. is preparing its budget for the third quarter of the year. At a price of $4 per unit, it expects to sell 1,800 units in July, 2,400 units in August, and 3,200 units in September. The company did not sell any units in May and June. Its cash collection pattern is as follows:

- 60% collected in the same month of sales
- 30% collected one month after the sale
- 10% collected two months after the sale

Required: Prepare the third quarter Sales Budget and Cash Collections Budget using the information provided above. How much will the balance of the accounts receivable account be on the 30th of September? (20 Marks)

B- Selected sales and operating data for three divisions of different structural engineering firms are given as follows:

	Division A	Division B
Sales	$400,000	$500,000
Average operating assets	$100,000	$200,000
Net operating income	$20,000	$25,000
Minimum required rate of return	5%	6%

Required:

(1) Compute the margin, turnover, and return on investment (ROI) for each division.

(2) Compute the residual income for each division.

(3) Assume that each division is presented with an investment opportunity that would yield a 15% rate of return. If performance is being measured by ROI, which division or divisions will probably accept the opportunity? Reject? Why? (30 marks)
