Answer All the questions:

Question 1 (10 Marks):

A. List three key challenges faced in managing information systems. (3 Marks)

B. Differentiate between data and information with an example. (3 Marks)

C. Describe the main steps involved in the problem-solving process. (4 Marks)

Question 2: (10 Marks)

A. Identify the four basic business functions within an organization. (3 Marks)

B. How does IT enhance business processes? (4 Marks)

C. Compare and contrast Management Information Systems (MIS) and Decision Support Systems (DSS) in terms of their functions and purposes. (3 Marks)

Question 3: (10 Marks)

A. What are relational databases? (3 Marks)

B. Based on the following description, create an Entity-Relationship Diagram (ERD)

"At a university, students register for courses taught by instructors. Each student has a unique ID, name, and major. Each course has a course code, title, and number of credits. Each instructor has an instructor ID, name, and department. A student can register for many courses, and each course can have many students. Each registration record includes the date of registration and the grade the student learns in the course.

Each course is taught by one instructor, but each instructor can teach many courses." (7 Marks)
