Question 2: Technical Translation (30 minutes: 10 marks)

Translate the instructions below for using a Singer sewing machine into Arabic, ensuring that your translation follows the norms and conventions of Arabic technical style.

1. Do not allow to be used as a toy. Close attention is necessary when this sewing machine is used by or near children.

2. Use this sewing machine only for its intended use as described in this manual. Use only attachments recommended by the manufacturer as contained in this manual.

3. Never operate this sewing machine if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water.

4. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Section II: Scientific Translation (45 minutes: 15 marks)

Question 1: Translation Revision (15 minutes: 5 marks)
Edit and proofread the Arabic translation below of a medical report on the disease of diabetes mellitus. Identify and correct ONLY FIVE errors. (1 mark each)

ST	TT
Hypertension is common but can be serious if not treated. Modifiable risk factors include unhealthy diets (excessive salt consumption, a diet high in saturated fat, low intake of fruits and vegetables), physical inactivity, consumption of tobacco and alcohol, and being overweight or obese. In addition, there are environmental risk factors for hypertension and associated diseases, where air pollution is the most significant. Most people with this disease don't feel any symptoms, yet it can cause headaches, blurred vision, chest pain and other symptoms.	ارتفاع ضغط الدماء شائع، ولكنه قد يكون خطيرًا إذا لم يُعالج. تشمل عوامل الخطر الغير قابلة للتعديل: اتباع نظام غذائي غير صحي (الفرط في تناول الملح، واتباع نظام غذائي غني بالدهون المتشبعة ، وقلة تناول الفواكة والخضراوات)، وقلة النشاط البدني، واستهلاك التبغ والكحول، وزيادة الوزن أو السمنة. بالإضافة إلى ذلك، يوجد عوامل خطر بيئية لارتفاع ضغط الدم والأمراض المرتبطة به، ويُعد التلوث الهواء من أهمها. لا يشعر معظم المصابون بهذا المرض بأي أعراض، لكنه قد يُسبب الصدع، وتشوش الرؤية، وألم الصدر، وأعراضًا أخرى.
