Final Exam

2025-2026 / Fall
Date: 13 Jan. 2026
9:30 – 12:30

Section: _____

Number of Exam Pages: 12 (Including this cover sheet)	**Time Allowed:** **3 hours**

INSTRUCTION

1. Allow approximately 10 minutes to read the instructions on this page and to read through the whole examination paper.

2. There are TWO parts to this examination paper:

Part A (30 marks): There are THREE Questions. You are required to answer all THREE questions.

Part B (20 marks): There are TWO Questions. You are required to answer ONE only; ***if you answer both questions, only the first one will be marked.***

3. Carefully follow the instructions in each part.

4. In your answer, make sure that you:

- Clearly write the number of the question that you decide to answer.

- Cross out any rough notes you make that you do not wish to be marked/graded.

5. Review your answers carefully, paying attention to your grammar, spelling, and punctuation as well as to relevant textual elements (e.g., paragraphing, cohesion & coherence), as part of the mark for each question will be given to language accuracy and text organization

PART A

Answer ALL Questions (30 marks; 10 marks each)

Question 1:

Underline the **process** in each given clause below, then rewrite the clause to change its angle of representation by transforming the process in each clause into **passive voice** using the verb provided between brackets in its correct verb form, making the necessary changes.

(10 marks: 0.5 mark for each underlined process and 0.5 for the rewritten clause with the verb between brackets in passive voice)

For example, I allowed my children to use my tablets. (→ permit)

Answer: *The children were permitted to use my tablet.*

1. The committee members discussed the ethical implications of the experiment. (→ examine)

_____

_____

2. The researcher analysed the participants' responses to identify emerging patterns. (→ interpret)

_____

_____

3. The editor revised the manuscript to meet the journal's publication standards. (→ modify)

_____

_____

4. The lecturer emphasized the importance of critical thinking in academic writing. (→ highlight)

_____

_____

5. The government implemented new regulations to reduce environmental pollution. (→ enforce)

_____

_____

6. The students conducted a survey to gather data on social media usage. (→ administer)

_____

_____

Question 3:

Read the following newspaper extract. Label the underlined clauses as Projected Quoting or Projected Reporting, mentioning if each clause is dependent or independent.

(10 marks: there are 10 underlined clauses. Each clause labelled dependent or independent = 0.5 mark, and each projected clause labelled Quoting or Reporting = 0.5 mark.)

Extract:

Universities urge governments to rethink student mental health policies

At the International Education Forum held in Geneva, leading academics discussed the growing mental health crisis among university students.
Conference chair Dr. Helen Murray stated (1) that student well-being should be treated as a core indicator of institutional quality rather than an optional service.
She argued (2) that current funding models fail to prioritise psychological support in higher education.
(3) "Universities can no longer view counselling as a peripheral activity," Dr. Murray said.
She continued (4) that collaboration between health ministries and education departments was urgently needed.
(5) "The evidence shows that prevention is far more effective than intervention," she added.

In a separate session, sociologist Professor Karim Haddad remarked (6) that the stigma around mental health remains one of the biggest barriers to progress.
(7) "Many students still fear being judged if they seek help," he observed.
A new report by the Global Education Council revealed (8) that more than 60% of universities lack a formal strategy for addressing student mental health.
Policy analyst Dr. Laila Chen explained (9) that these findings would likely prompt a review of government priorities.
(10) "We must recognize that academic success is inseparable from mental well-being," she concluded.

PART B

Answer ONE Question only (20 marks)

If you answer both, only the first one will be corrected.

Question 1:

Write an essay (350 - 400 words) in which you define, explain, and discuss the following related grammatical terms and concepts clearly and fully as they are discussed in the relevant course unit materials. Discuss the similarities and relationship between each two terms in separate body paragraphs. Illustrate your answers with appropriate examples to demonstrate your understanding using your own words.

1. Critical discourse analysis (CDA) and evaluation ***(5 marks)***
2. Prescriptive grammar and descriptive grammar ***(5 marks)***
3. Transitive and intransitive verb groups. ***(5 marks)***
4. Verbal and behavioural processes ***(5 marks)***

Question 2:

Below are two texts of the same length that exemplify the differences in how information is distributed among participants, processes, and circumstances.

Read the texts carefully and write an essay (350 – 400 words) in which you answer the following questions.

1. How do the texts compare in terms of the number of **processes** found in each text? ***(5 marks)***
2. How do the texts compare in terms of the number of **pronouns** functioning as participants? ***(5marks)***
3. What other contrasts are there in terms of the different types of **participants, processes, and circumstances** in the two texts? ***(10 marks)***

Your answer must be full, focused, and well-illustrated. Use your own words.

Text A

Artificial intelligence (AI) is rapidly transforming multiple sectors, including healthcare, finance, and education. Machine learning algorithms enable predictive analytics, improve decision-making, and optimize resource allocation. Researchers emphasize that the ethical design and deployment of AI systems are crucial to prevent bias, ensure transparency, and maintain public trust. Investments in AI research and development continue to grow, facilitating innovation and efficiency gains across industries. Consequently, policymakers and stakeholders are urged to develop regulations and frameworks that promote responsible AI adoption while maximizing societal benefits.

Text B

J: So yesterday, I was testing a new AI-powered app on my phone. It's supposed to recommend restaurants based on your preferences. I typed in a few places I liked, and it instantly suggested a ton of options nearby. Then I asked it for directions, and it actually guided me through some shortcuts I didn't know. My friend was watching, and we joked about how soon robots might be running everything for us. By the end, I realized the app had saved me so much time and made everything way easier. I can't wait to try it again next weekend....
