Part A: (10 marks – 2 each)

Choose 5 concepts to explain using short answers (30-50 words each). Use examples as appropriate.

1. Emergent grammar
2. Terms of Address
3. Adjacency pairs
4. Literacy Practices
5. Subtractive bilingualism
6. Genre

Part B: (10 marks – 1 each)

Choose the correct answer. Only one option is correct

1. What does "additive bilingualism" refer to?

a) Learning a second language that replaces the first language.
b) Learning a second language while maintaining proficiency in the first language.
c) A situation where a person's first language is completely forgotten.
d) Learning a second language in a way that creates language confusion.

2. Subtractive bilingualism can lead to:

a) The loss of proficiency in the first language while acquiring a second language.
b) A deeper connection to one's first language and culture.
c) Maintaining equal fluency in both languages.
d) The development of a third language.

3. Which of the following is an example of emergent grammar in children?

a) The use of past tense forms like "goed" instead of "went."
b) Using complex sentences from the beginning of language acquisition.
c) Perfect use of all grammatical structures from the outset.
d) Speaking only in one-word utterances.

4. Formulaic speech refers to:

a) A type of grammar rule that children invent.
b) A method of teaching grammar.
c) Phrases or expressions that are learned and used as whole units, often without much modification.
d) A way of speaking in an academic setting.

5. What is the primary feature of child-directed speech (CDS)?

a) It uses complex vocabulary and sentence structures.
b) It is characterized by a slower, clearer speech pattern with exaggerated intonation.
c) It involves only formal language.
d) It uses only the child's first language.

6. Shirley Brice Heath's study on language use in different communities focused on:

a) The impact of formal education on language development..
b) The correlation between socio-economic status and language disorder.
c) The role of bilingualism in cognitive development
d) Differences in how children from different social backgrounds acquire language.

7. Goffman's notion of "face" refers to:

a) A person's physical appearance.
b) The social value a person claims for themselves in interaction.
c) The act of making direct eye contact in conversation.
d) The literal face expression a person uses during communication.

8. In politeness theory, which of the following is considered a face-threatening act?

a) Asking a question politely.
b) Giving someone a compliment.
c) Making a request that imposes on someone.
d) Offering to help someone.

9. A term of address is:

a) A title or phrase used to refer to someone.
b) A greeting used to start a conversation.
c) The structure of a sentence.
d) A nonverbal signal during conversation.
