PART A – CASE STUDY

Netflix's Successful Strategy for Digital Transformation

Netflix started as a DVD rental-by-mail company in 1997. By the early 2000s, the company faced challenges from declining DVD sales and rising digital streaming trends. To stay competitive, Netflix to transform its business model.

In 2007, Netflix transitioned from DVD rentals to an online streaming platform, offering instant acce movies and TV shows.

To reduce dependency on third-party content, Netflix started producing its own shows like *House of Cards* and *Stranger Things*, which attracted millions of subscribers.

The company used AI and machine learning to recommend content based on user preferences, increa engagement and retention.

Netflix aggressively expanded to international markets, tailoring content to different regio
